Description

The NEXOLIGHT Spica Spike Spotlight Type 56 brings focused light flexibly to planting beds, pathways and architectural details. This compact spike spotlight remains visually restrained, can be aimed precisely and is designed for 1 x GU10 mini MR11 max. 15 W. According to the catalogue, the matching LED light bulb `9999-200` is intended for this version, allowing compact and highly targeted outdoor lighting for plants and facade details. The light is available in anthracite grey and black.
