

Ingo Maurer

Lampampe

Technical details

Country of Manufacture	 Germany
Manufacturer	Ingo Maurer
Designer	Maurer, Ingo
Year of design	1980
Protection class / IP rating	IP20
Contents of the package	Leuchtmittel/Bulb
voltage suitability	110 - 240 Volt
material	metal, paper
Cable length	200 cm
Base / Socket	E27
Switchability	on the lead
Power (max. Watt)	100 Watt
Shade diameter	75 cm
Dimensions	H 76 cm

Description

The Ingo Maurer Lampampe is an elegant and variable table lamp. The lamp body consists of Japanese paper. By screwing the screw ring at the lamp stand, the base out of paper will be slightly compressed and crumpled. Thus the classical shape of the table lamp is broken and transformed into a new contemporary form. As the look of the paper base is different every time, every version of this Ingo Maurer light is unique. Due to the crumpled paper a warm and comfortable lighting is created inviting to relax.
