- black
- white

Description

The Lumina Flo Clamp is a modern table lamp that is directly fixed to the table plate via a clamp. The Flo family is the result of the first cooperation of Lumina and the design studio Foster & Partners. The design is minimalist and timeless integrating fine details into a slim shape. The idea was to create a functional reading light embedding the latest LED technology into a simple floating shape. The modern elegance of the Flo Clamp is achieved not only through the sophisticated shaping but also through the omission of external mobile parts like coils and springs. This lamp is controlled via a switch attached to the light head. This switch has three positions being: Off, 100% light intensity, 50% light intensity. A 6 watt LED with 2.700 Kelvin is integrated into the Lumina Flo Clamp. On request you can order this lamp also with 3.000 Kelvin. If you like to order this article, please specify the Kelvin colour temperature of the lamp under the item Order Review in the field Order Comment. This lamp can be fixed to tables with a maximum plate thickness of 4.7 cm.

Technical details

Country of Manufacture	 Italy
Manufacturer	Lumina
Designer	Foster+Partners
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	110 - 240 Volt
Projection in cm	39
material	aluminum, steel
dimming	2-position Dimmer
Wattage	6 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	500
Color temperature in Kelvin	2,700 extra warm white
light distribution	directly
Dimensions	H 43 cm
