| <b>Lamp included</b>                | no                             |

### Description

The Next DNA single designed by Hopf & Wortmann is a pendant lamp impressing through its extravagant design. There are further lamps out of this series in different versions on offer. The single light consists of one surprisingly simple basic element with three lamps. It is on offer in the four colours black, chromed, copper and white. Out of this series, it is one of the smallest pendant lamps.
