

Vibia

Set 7753

Technical details

Country of Manufacture	 Spain
Manufacturer	Vibia
Designer	Xuclà
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	110 - 240 Volt
Depth in cm	10
material	aluminum, Borosilicate glass, polycarbonate
dimming	0-10V dimmable
Wattage	9 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	1,269
Color temperature in Kelvin	2,700 extra warm white
Dimensions	H 45 cm B 38 cm

Description

The Vibia Set 7753 creates a fascinating game of light and shadow on your wall. This lamp is a combination of a single lamp LED Wall and four mobile, reflecting elements. At the bottom of the lamp a modern 9 watt LED is housed, which radiates its light upwards. The four upper parts of the Set 7753 can be pivoted about 360°. So the light of the lower part is guided always differently.

The Vibia Set 7753 is designed by Xuclà and is available by Vibia in the surfaces white matt and milk matt. The wall light can be dimmed on site with 0-10 Volt. As standard, this lamp has a colour temperature of 2,700 Kelvin extra warm white; on request, it is also available with 3,000 Kelvin warm white or 4,000 Kelvin white. As a single lamp the Set 7753 is just so same impressive as in combination with other Set lights. Then fascinating light objects arise on the wall.
