

Keilbach

Mailbox Glasnost Wood

Version

- Grey
- Heart
- Larch
- Oak

Description

These Keilbach Glasnost mailboxes consist of a brushed stainless steel body combined with various wooden fronts.

The mailboxes are offered in the following versions:

Larch: untreated larch wood front - can also be painted, varnished, glazed or oiled.

Heart: Wooden front in untreated larch with a milled heart. The front can also be painted, varnished, glazed or oiled.

Oak: oak wood front, colourless glazed

Grey: oak wood front, grey glazed

The designer Peter Keilbach attaches great importance to high-quality materials, careful workmanship, timeless design and long life expectancy. This high-quality workmanship is shown for example by the installation of 2 damping elements. Thus the flap closes slowly and quietly. The stainless steel is between 1.5 and 2 mm thick, the letterbox weighs 9 kg. The lock was placed under the access flap. The front is flush with the housing. Inside, the letters are elevated on a double bottom.

Matching the mailboxes, Keilbach also offers tripods that carry the mailbox. These tripods are available as accessories. Also suitable newspaper boxes are offered.

You can order a foil inscription for your Glasnost mailbox, individual logos, displays or LED lighting from us - just ask us if you are interested.
