Description

The Byok Piani Lungo 195 Downlight is a timeless pendant lamp suitable for nearly all living areas. The Piani Lungo Downlight is characterised by its unusual shape as its lamp body being 0.8 cm thin is milled out of massive aluminium and polished by hand afterwards. The reflective surface of this lamp is broken by four fine ropes out of copper braid for the current supply.

Due to this design the Byok Piani Lungo 195 Downlight seems to vanish in its surrounding. This lamp pleasantly illuminates the room in an almost agravic way. The LED bulbs are placed inside sockets so that they may be exchanged singly.

The integrated LEDs can be **dimmed on site with a trailing edge phase dimmer**. On request, they are also available with gesture control and Dim2Warm technology. With gesture control, the light is dimmed by holding the hand flat under the lamp. With Dim2Warm technology, the light takes on a warmer colour when dimmed. When dimmed, the light colour of the LEDs changes from 2,700 Kelvin extra warm white to 2,100 Kelvin extra warm white. The dimming range is between 0 and 100 percent. In addition, the lamp is also available on request as a version that can be dimmed by smartphone/tablet via Bluetooth.
