

Catellani & Smith

Fil de Fer Pendant LED 50

Oberfläche

- natural aluminum
- gold

Voltage

- 230 - 240
- 110 - 125

Description

The Catellani & Smith Fil de Fer Pendant LED 50 is a pendant lamp that consists of a mesh of aluminum wire in the form of a sphere. This pendant light is offered in two surfaces: natural aluminum or gold. In the version in natural aluminum the wire is untreated and thus appears silver. In the golden variant, the aluminum was anodized in gold. In the sphere itself twelve LED lamps are installed so that the light seems to glow from the inside to the outside.

This lamp has a diameter of 50 cm. The Fil de Fer Pendant LED 50 is equipped with twelve LED lamps, each with 1 watts of power. It is on site dimmable. This lamp has a dome-shaped canopy measuring 21 x 10.5 cm. The supplied cable is 170 cm long and can be shortened when required.

Technical details

Country of Manufacture	 Italy
Manufacturer	Catellani & Smith
Designer	Enzo Catellani
Year of design	2002
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	110 - 240 Volt
Diameter in cm	50
material	aluminum
Cable length	170 cm
Height adjustment	height determinable
dimming	on site dimmable with a trailing edge dimmer
Base / Socket	G4
LED	inclusive
Colour Rendering Index	80
Color temperature in Kelvin	2,700 extra warm white
canopy dimensions	21 cm
bulb exchange	on site itself
system performance	12 x 1 Watt
Total luminous flux in lm	900
Dimensions	Ø 50 cm
