Mimix Concrete Construction Spotlight M-BUS white

Technical details

Country of Manufacture	 Germany
Manufacturer	less'n'more
Designer	less'n'more
Protection class / IP rating	IP43
Contents of the package	LED
voltage suitability	230 - 240 Volt
Depth in cm	7
material	aluminum, concrete, glass
surface	white
beam angle	100 degrees
dimming	on site dimmable with a trailing edge dimmer
Wattage	4.3 W
LED	inclusive
LED (replaceable)	yes
Colour Rendering Index	85
Luminous flux in lm	390
Color temperature in Kelvin	2,700 extra warm white
light head dimensions	6 cm
LED number	1
light distribution	directly
Dimensions	H 14 cm

Description

The housing of the less'n'more Mimix Concrete Construction Spotlight M-BUS is built into the wall. This makes this wall light to take not much space in the room and still to emit lots of light directly downwards. The casing corpus has the shape of a plate, in the upper part of the plate the aluminum light head rests.

For the Mimix Concrete Construction Spotlight M-BUS an annular region is visible around the concrete casing. On request there is available in our online shop as well a mounting plate for a frameless installation in a sunk cavity wall. This mounting plate can be found with us as an accessory.

The casing of the wall lamp is available in two finishes: grey or white. The diameter of the casing is entirely outside 14 cm, the inner ring has a diameter of 12 cm. The Mimix Concrete Construction Spotlight M-BUS is built max. deep 6.5 cm into the wall.

The lamp head with a diameter of 5.7 cm carries in itself a powerful LED with an output of 4.5 watts at 2,700 Kelvin colour temperature. The lamp can be on site dimmed with a trailing edge dimmer. More spotlights, wall and ceiling lamps in this collection can be obtained from our online shop.
