

Luceplan

Blow remote control

Technical details

Country of Manufacture	 Italy
Manufacturer	Luceplan
Designer	Ferdi Giardini
material	polycarbonate

Description

The Luceplan Blow remote control for ceiling fan Blow can be used to set all functions of the fan. With the infrared remote control, the speed of the ceiling fan can be adjusted continuously. In addition, it also regulates the light intensity and can even dim the light. The rotation of the coloured and transparent wings of the Blow bring a cooling breeze and a pleasant light distribution in the room.
