Contents of the package	Leuchtmittel/Bulb
voltage suitability	230 - 240 Volt
material	ABS, polycarbonate, steel
surface	white
dimming	on the lamp head
Base / Socket	E27
Power (max. Watt)	100 Watt
Luminous flux in lm	1,320
Color temperature in Kelvin	2,800 warm white
Version	-
Shade diameter	16 cm
Arm length	44 + 36 cm
lamp stand dimensions	23 cm
light distribution	directly

Description

The Luceplan Fortebraccio Table lamp with dimmer is equipped with a round table base. In addition to this lamp, the Fortebraccio Table and Wall lamp is also available, which is offered in various versions for installation. Thanks to the central joint, it is possible to readjust the Fortebraccio table lamp again and again. The two arms of the lamp can be rotated independently, the same applies to the light head. The handle on the head allows for a flexible orientation so that the lamp is also suitable as a reading light. One arm is 44 cm long, the other arm 35.5 cm.

This Fortebraccio Table has a dimmer at the head. Alternatively, it is also offered with switch. Black soft touch, white and metal are offered as surfaces. The lamp base and body always have the same surface. The Fortebraccio Tavolo, which was awarded with the Compasso d'Oro in 2001, was designed by Alberto Meda and Paolo Rizzatto.
