

Luceplan

Hope Suspension 110

Technical details

Country of Manufacture	 Italy
Manufacturer	Luceplan
Designer	Paolo Rizzatto
Designer 2	Francisco Gomez Paz
Year of design	2009
Protection class / IP rating	IP20
Contents of the package	Leuchtmittel/Bulb
voltage suitability	110 - 240 Volt
Diameter in cm	110
material	polycarbonate, steel
surface	transparent
Cable length	60 - 410 cm
Height adjustment	height determinable
dimming	on site dimmable with a leading edge dimmer
Base / Socket	E27
Color temperature in Kelvin	2,800 warm white
system performance	3 x 250 Watt (max.)
Total luminous flux in lm	6,405
light distribution	indirectly
Dimensions	H 66 cm Ø 110 cm

Description

The Luceplan Hope Suspension 110 has a diameter of 110 cm and a height of 66 cm. This makes it the second-largest lamp in this series. Like the other pendant lights, it is equipped with a three-dimensional steel structure with transparent arms arranged on it. On the arms Fresnel lenses are placed, which break the light like glass and create impressive reflections on the walls.

The cable length is at maximum 410 cm and can be shortened if necessary. Francisco Gomez Paz and Paolo Rizzatto created the Hope series after inspired by the famous Hope Diamond, one of the most expensive diamonds in the world. Since 2009, the series has already won numerous prizes, among others the Red Dot Design Award and the Compasso d'Oro ADI. Apart from this medium-sized pendant lamp also other sizes are offered.
