Description

The Oluce Cylinda 218 OR has a lamp body consisting of two cylindrical components. The upper disc-shaped component is painted in satined gold, while the lower part is matt black. The complete lamp is made of metal. A 12.5 watt LED is located in the upper part of the table lamp and emits the light directly downwards. The light is regulated with an on / off switch on the cable. Apart from this black and gold painted table lamp, this series also offers a completely black version.
