Description

The Vibia Wireflow 0338 is a linear pendant lamp designed by Arik Levy. This 2D Wireflow is characterized by its black cable, its metal rod structure and its integrated 4.5 Watt LEDs. The lamp traces pure, minimalist forms in two dimensions and thus achieves a graphic character. This pendant lamp can be dimmed by the customer with 1-10 volts; a DALI dimmable version is also available on request. If the pendant length of the lamp should differ, please send us an individual request. The length of the lamp cannot be shortened by the user.
