Description

The Luceplan Lita Table D92=30 is equipped with a diffuser made of satinised mouth-blown opal glass. It has a diameter of 30 cm and a height of 25 cm. The light is radiated through the diffuser into the room without glare. The vertical grooves on the surface of the diffuser create slight light effects on the light when switched on. Including the base, the Lita table lamp D92=30 is 46 cm high. The base is available in white lacquered aluminum or ash wood. The light is regulated with a dimmer on the supply line. It can be operated with halogen lamps or LED retrofit lamps.
