

Holtkoetter

Supernova PW

Oberfläche

- aluminum
- brass
- platinum
- black

Description

The Holtkötter Supernova PW is a flexibly adjustable pendant lamp. It consists of an outer ring and an inner disc, which can be adjusted differently. The outer ring emits its light downwards, but can also be adjusted at an angle. The inner disc can be rotated almost 360 degrees independently of the ring and can therefore distribute its light downwards, upwards or sideways. The LEDs of the ring and disc are separately switchable and infinitely dimmable. The two push button dimmers are integrated on the ring. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,900 Kelvin warm white to 2,200 Kelvin extra warm white) thanks to Dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer.

The total height of the Supernova PW is adjustable by simply pushing upwards and pulling downwards from 45 cm to 160 cm. Installation on a sloping roof is also possible. Thanks to a roll-up mechanism, the excess cable disappears into the canopy and the lamp always remains horizontal at the desired height. Special lengths for the light are also available on request. The pendant lamp is offered in matt aluminum, anodised brass, platinum and black.

Technical details

Country of Manufacture	 Germany
Manufacturer	Holtkoetter
Designer	Holtkötter
Year of design	2019
color temperature (kelvin)	2.200 - 2.900
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
material	metal
Height adjustment	height adjustable
dimming	Touch dimmer on the lamp
LED	inclusive
Colour Rendering Index	>90
canopy dimensions	38 cm
light head dimensions	42 cm
bulb exchange	at the manufacturer / at the factory
system performance	1 x 29 + 1 x 31 Watt
Total luminous flux in lm	8,750
light distribution	directly
total height	45 - 160 cm
