

Holtkoetter

Supernova D

Oberfläche

- aluminum
- brass
- platinum
- black

Description

The Holtkötter Supernova D arc lamp has a lamp head consisting of two parts: an outer ring and an inner disc. The two parts of the lamp head each have an integrated LED that can be replaced by qualified personnel. The LEDs can be dimmed continuously using a touch dimmer in the centre of the luminaire rod. The two light sources can be switched and dimmed separately. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 3,100 Kelvin warm white to 2,700 Kelvin warm white) thanks to dim-to-warm technology. The last light setting used is saved using the memory function.

The two parts of the lamp head can be aligned independently of each other, allowing the lamp head to be adjusted in numerous ways. This allows the light to be directed upwards, downwards and/or to the side. The Supernova D floor lamp is available in matt aluminium, platinum, anodised brass and black.

Technical details

Country of Manufacture	 Germany
Manufacturer	Holtkoetter
Designer	Holtkötter
Year of design	2019
color temperature (kelvin)	2.700 - 3.100
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
Projection in cm	71
material	metal
dimming	Push button dimmer at the light rod
LED	replaced by professional
Colour Rendering Index	98
lamp stand dimensions	42 cm
light head dimensions	42 cm
bulb exchange	on site itself
system performance	1 x 38 + 1 x 60 Watt
Total luminous flux in lm	12,000
light distribution	directly
Dimensions	H 185 cm
