Description

The Foscarini Rituals XL Sospensione is the largest of the four pendant lights from the Rituals series that resembles a lantern in its ease. In a complex method the mouth-blown, white satinated glass is provided with a unique grooves effect which creates light reflections on the glass when switched on. Through the glass the light is emitted glare-free and homogeneously into the room. The pendant lamp has a white canopy. The Rituals XL Sospensione has an E27 socket and can be operated with LED retrofits.

The light has a maximum suspension of 340 cm which can be shortened if necessary. On request also a light with a larger suspension is offered. As the amount is almost equal to the diameter, the light seems almost round. Due to the extraordinary size the Rituals XL illuminates effortlessly any room.
