

Knapstein

LINDA-152

Oberfläche

- nickel
- black
- bronze

Description

The Knapstein LINDA-152 pendant lamp has a length of 152 cm. By lifting or pulling the lamp, the total height of the lamp can be adjusted between 73 cm and 180 cm at any time. The lamp can also be suspended at an angle. The pendant lamp emits its light simultaneously upwards and downwards. The uplight and downlight can be switched and dimmed separately by gesture control. In addition, the light colour can be adjusted to produce a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved by the memory function and are automatically adjusted again the next time the device is switched on.

The sensor area for gesture control is located in the centre of the lamp. The lamp is switched on or off with a wiping hand movement in the sensor area. If the hand is held longer in the sensor area, the luminous intensity can be adjusted. Holding the hand in the sensor area for a longer period of time again also allows the desired light colour to be adjusted. The LINDA-152 is available with a matt nickel, black or bronze effect finish. The series also includes pendant lamps with a length of 92 cm, 112 cm or 132 cm. On request, the LINDA is also available in other lengths or surfaces.

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Designer	Knapstein
Year of design	2020
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
material	brass
Height adjustment	height adjustable
dimming	gesture control
Wattage	72 W
LED	inclusive
Colour Rendering Index	>90
Luminous flux in lm	8,580
Color temperature in Kelvin	2.200 - 3,000 adjustable
bulb exchange	at the manufacturer / at the factory
total height	73 - 180 cm
Dimensions	H 3.4 cm B 1.6 cm L 152 cm
