

Bopp

Stella 30

Oberfläche

- aluminum
- black

Technical details

Country of Manufacture	 Germany
Manufacturer	Bopp
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
Diameter in cm	30
material	aluminum
dimming	dimmable with a trailing edge dimmer and with a leading edge dimmer
LED	inclusive
Colour Rendering Index	95
Color temperature in Kelvin	Dim to warm
system performance	4 x 10 Watt
Total luminous flux in lm	3,220
Dimensions	H 20 cm Ø 30 cm

Description

The LED ceiling light Bopp Stella 30 has a round-shaped, flat light head with a diameter of 30 cm and a thickness of only 0.6 cm. The Bopp Stella 30 ceiling light has an overall height of 20 cm and is available in the surfaces anodised aluminium and anodised black. The ceiling bracket of this LED lamp has the same surface as the lamp head, has a diameter of 12 cm and is 2 cm high. The element that connects the ceiling bracket and the lamp head is white for the aluminium finishe and black for the black finishes. This aluminium ceiling light has four integrated LEDs that emit warm white light upwards. The light of the LEDs is characterised by a very good colour rendering with a very high colour rendering index of Ra 95. When dimming the Bopp Stella 30 ceiling light, the light colour of the LEDs changes to a warmer tone (from 3,000 Kelvin warm white to 2,000 Kelvin extra warm white) thanks to the dim-to-warm technology.
