

Knapstein

ELIN

Oberfläche

- nickel
- black
- bronze

Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Year of design	2024
Materials	Acryl, Metall
height adjustment	height adjustable
Dimmability	gesture control
Power in watts	110 W
LED #	inclusive
Colour rendering index (CRI / Ra)	>90
luminous flux	11.232
color temperature (kelvin)	2.200-3.000
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
bulb exchange	at the manufacturer / at the factory
total height	70 - 170 cm
Dimensions	H 5,5 cm B 35 cm L 95 cm

Description

The Knapstein ELIN pendant lamp emits its light upwards and downwards at the same time. The uplight and downlight can be switched and dimmed separately using gesture control. The light colour can be adjusted separately for the uplight and downlight to a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The height of the lamp can be adjusted within a range of approx. 100 cm by pulling or lifting the lamp profile. The sensor area for gesture control is located in the centre of the lamp. The lamp is switched on or off with a swiping hand movement in the sensor area. To change the light intensity, the hand is held longer in the sensor area. The desired light colour can then be set by holding the hand in the sensor area for a longer period again. The ceiling canopy of the Knapstein ELIN LED pendant lamp has a magnetic holder, so no screw connections are visible. There are several surfaces available.
