

Holtkoetter

Supernova GT

Oberfläche

- aluminum
- brass
- platinum
- black
- white

Description

With 2500 lumens and a colour rendering index of >90, the Holtkötter Supernova GT leaves nothing to be desired in terms of the light emitted. The lamp head, which can be rotated and swivelled in any direction, allows the light to be directed in any direction. The light rod of the Holtkötter Supernova GT can also be tilted by 15° - 60°. The touch dimmer with memory function on the base of the lamp allows the brightness to be continuously adjusted. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,850 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. If necessary, the LEDs can be replaced by the manufacturer. The Holtkötter Supernova GT is available in matt aluminium, anodised brass, platinum, white and black. In the anodised brass model, the luminaire rod is black; in all other models, the lamp rod and luminaire head have the same finish.

Technical details

Country of Manufacture	 Germany
Manufacturer	Holtkoetter
Designer	Holtkötter
Year of design	2023
Projection in cm	56,5
Materials	Aluminium
height adjustment	height adjustable
Power in watts	16 W
LED #	inclusive
Colour rendering index (CRI / Ra)	>90
luminous flux	2500
color temperature (kelvin)	2.200 - 2.850
Protection class / IP rating	IP20
Contents of the package	LED
voltage suitability	230 - 240 Volt
dimming	Push button dimmer on the lamp base
lamp stand dimensions	18 cm
light head dimensions	18 cm
bulb exchange	on site itself
